FY 2022 Extremely Low-Income Income Limits Calculation

The Quality Housing and Work Responsibility Act of 1998 established a new income limit standard based on 30 percent of median family income, which was to be adjusted for family size and for areas of unusually high or low family income. A statutory change was made in 1999 to clarify that these income limits should be tied to the Section 8 very low-income limits. The preliminary 30 percent income limits, therefore, are calculated as 30/50ths (60 percent) of the Section 8 very low-income limits.

The FY 2014 Consolidated Appropriations Act changed the definition of extremely low-income to be the greater of 30/50ths (60 percent) of the Section 8 very low-income limit or the poverty guideline as [established by the Department of Health and Human Services \(HHS\)](#), provided that this amount is not greater than the Section 8 50% very low-income limit.
